

We congratulate and thank you for joining the ranks of Xtracycle Longtail owners – people around the world discovering happier, hipper, friendlier, richer ways to get around.

Every Day Adventure is about getting the most out of life, in the most unexpected ways, and making the world a better place while we're at it. This kit is your essential toolbox to get your longtail lifestyle in gear - we hope you find these products exceedingly well designed, yet simple and practical. That's the essence of LongTail Technology - the original longtail standard that's built on simplicity, functionality, and quality. Enjoy!

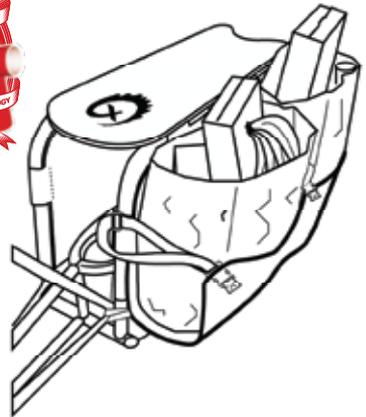

Contents of the Longtail Kit

SnapDeck

- Serves as loading platform & passenger seat
- Tensions V-racks
- Acts as a fender (use true fenders for seriously wet conditions)

V-Racks & FreeLoaders

- Keep your load away from your wheel
- Add rigidity to entire load-hauling assembly
- Flexible cargo space allows for dizzying array of loads
- Open ends & expandable girth enable you to carry big loads that baskets/bags can't handle

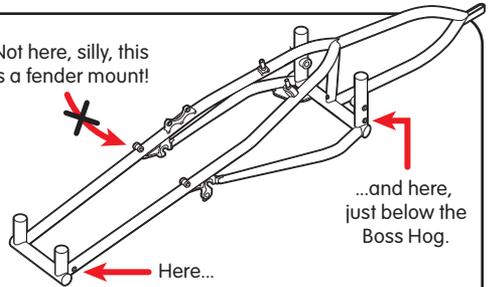

STEP 1

FreeLoader Installation

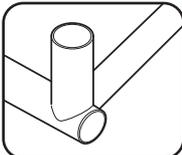

Making sure you install them correctly is essential to getting the most out of your Xtracycle.

First, take a look at your frame and locate the FreeLoader mounts, if you have any. They will be small threaded holes mounted on the frame. The diagram at right details the different FreeLoader mounting options:

Not here, silly, this is a fender mount!

FRAMES PURCHASED BEFORE AUG 2008

Bare Tubes

Frames purchased before august 2008 require retrofit kit (part no. FL-RET-08) to work with FL-07 and FLA-08 model FreeLoaders

RETROFIT KIT INCLUDES:

clamp

washer

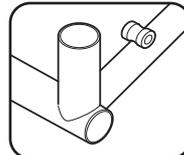

chainering bolt

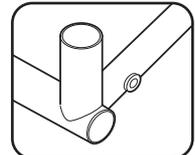

35mm bolt

FRAMES PURCHASED AFTER AUG 2008

Longtail Kit Installation Continued

**STEP
2A**

Retrofit Kit - Bare Tube

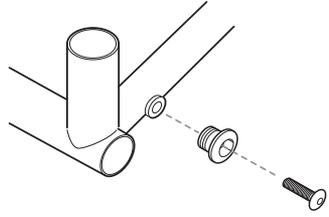

You may need to open up the clamp for the front tube.

Place it as far down as it will go.

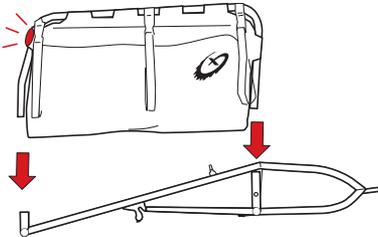

**STEP
2B**

Standard Kit Rack & Flush Mounts

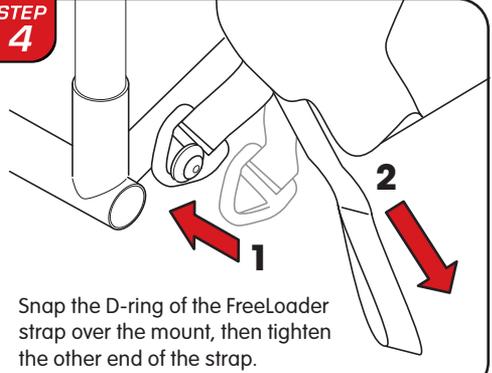

**STEP
3**

Insert the V-racks into the frame, being sure to insert them completely. Hint: The red reflector will face towards the back

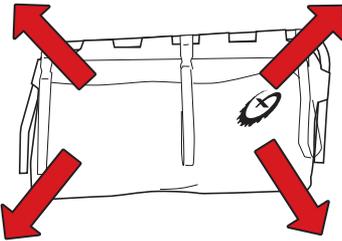

**STEP
4**

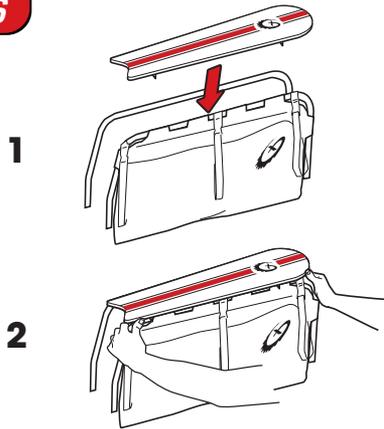

**STEP
5**

Important! To get the best performance out of your Xtracycle, make sure the straps are well tensioned and that everything is snug.

As a bug. In a rug.
